

visioncare

World's most versatile skin care system

- Innovative dispensing technology
- Top quality formulations
- Stylish multi-purpose dispensing units.

AUTOMATIC

MANUAL

○ **Most versatile applications** – each dispenser can be fitted with a choice of refills

○ **Part of the coordinated Hygiene Vision Range**

○ **Quality soap that delivers great cost-in-use** – in any size washroom

- **Vision200** – dispenses 500+ shots per refill, ideal of low traffic washrooms, confined spaces and hotel bathrooms
- **Vision400** – dispenses 1000+ shots per refill, ideal for most washrooms
- **Vision2000+** – dispenses 2000+ shots per refill, ideal for large, high traffic washrooms and frequent use wash stations such as kitchens and health care establishments

Same amount of hand washes as competitor products in a refill 20% smaller
less waste - less storage space - better for the environment

skin care refills

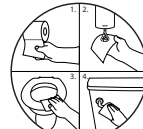

Foam Wash
Better foam and better cleaning

- **Luxury foam wash that's popular with washroom users** – rich, cleansing foam makes hand washing a pleasure encourages healthy hand washing habits
- **Antibacterial Foam Wash** – fragrance-free formulation kills germs and helps skin maintain its natural barrier against germs and bacteria
- **A satisfying hand washing experience** – one dose produces enough rich, thick, creamy lather to thoroughly cover both hands
- **Fresh fragrance and new hypoallergenic formulation**, that's pleasant to use and kind to skin
- **Best practice hygiene** – each refill bag comes with its own integral dispensing valve, so the risk of bacteria growing on the dispensing point is eliminated

Top Tip: Use one of graphic stickers supplied with the dispenser to show which refill is in the dispenser

Gel Hand Sanitizer
Alcohol-based
formulation kills
germs and bacteria –
INSTANTLY!

Hair & Body Wash
Luxury skin care ideal
for leisure, lodging and
hospitality markets

Foam Seat Sanitizer
Alcohol-based
formulation kills germs
and viruses on toilet
seats – INSTANTLY!

Standard
formulation

Extra strength
formulation

- **Best practice hygiene** – alcohol-based gel formulation kills 99.9% of pathological micro-organisms, reduces cross contamination and prevents spreadable diseases
- **Better germ kill** – alcohol works faster AND is more effective against bacteria than soap and water-based products
- **Best practice hand care** – moisturizing ingredients prevent drying and chaffing and keep hands soft and supple
- **Alcohol formulation works fast and dries quickly**
- **Protection at the point of use** – with no water required for use, hands can be sanitized at entry points and strategic positions around the building

- **Better hair and body washing experience** – luxurious formulation makes bathing or showering a pleasure
- **Gentle neutral pH formulation that's kind to skin** – contains mild cleansing ingredients enriched with fresh fragrance
- **Economical system** – each refill is used until empty unlike traditional bath and shower soaps that are often discarded after being partially used
- **Always available** – long lasting refills ensure a plentiful supply for washroom users and guests

- **Best practice hygiene** – encourages better hygiene standards. Can be used to sanitize toilet seats, flush handles and door locks
- **Better hygiene** – alcohol-based spray formulation uses active ingredients that are 99% effective against invisible dirt, E.coli and other intestinal bacteria, fungi and viruses
- **Better germ kill** – alcohol works faster AND is more effective against bacteria than soap and water-based products
- **Improved user confidence** – a sanitized seat is a safe seat
- **Immediate results** – alcohol formulation provides instant protection and dries fast

Awarded to our Foam Wash
vision400 and vision2000+ non perfumed refills
Licence no: BE/30/002

visioncare systems are...

Compliant, labels meet new REACH regulations, supported by reliable technical specifications

Compliant, dispenser meets WEEE regulations

ECHA registered materials and components used in aerosol refill product

Dispenser and e-bag refill can be recycled or disposed of according to local regulations

HYGIENE
VISIONTM

Hygiene Vision *top quality professional products* are made for the professional environment and deliver 'best practice' in all styles and sizes of Away-from-Home washrooms.

World's most environmentally friendly refill

The **E-bag** refill collapses fully as it empties, creating less disposable waste when it comes to replacing the refill.

1 box of E-bag waste = 3 pallets of standard soap container and cardboard waste
